

DISCIPLISHIP REPORT (CDM-GHAFES)

NOVEMBER, 2018

INTRODUCTION

We are the workmanship of God created in Christ Jesus onto good works which God has before ordained that we should walk in them (Ephesians 2:10). The grace of God has been sufficient for the month of November and three meetings were organized to train and to prepare the Lords people for the Lords work. The breakdown is as discussed below

BOLGATANGA POLYTECHNIC (UPPER EAST REGION)

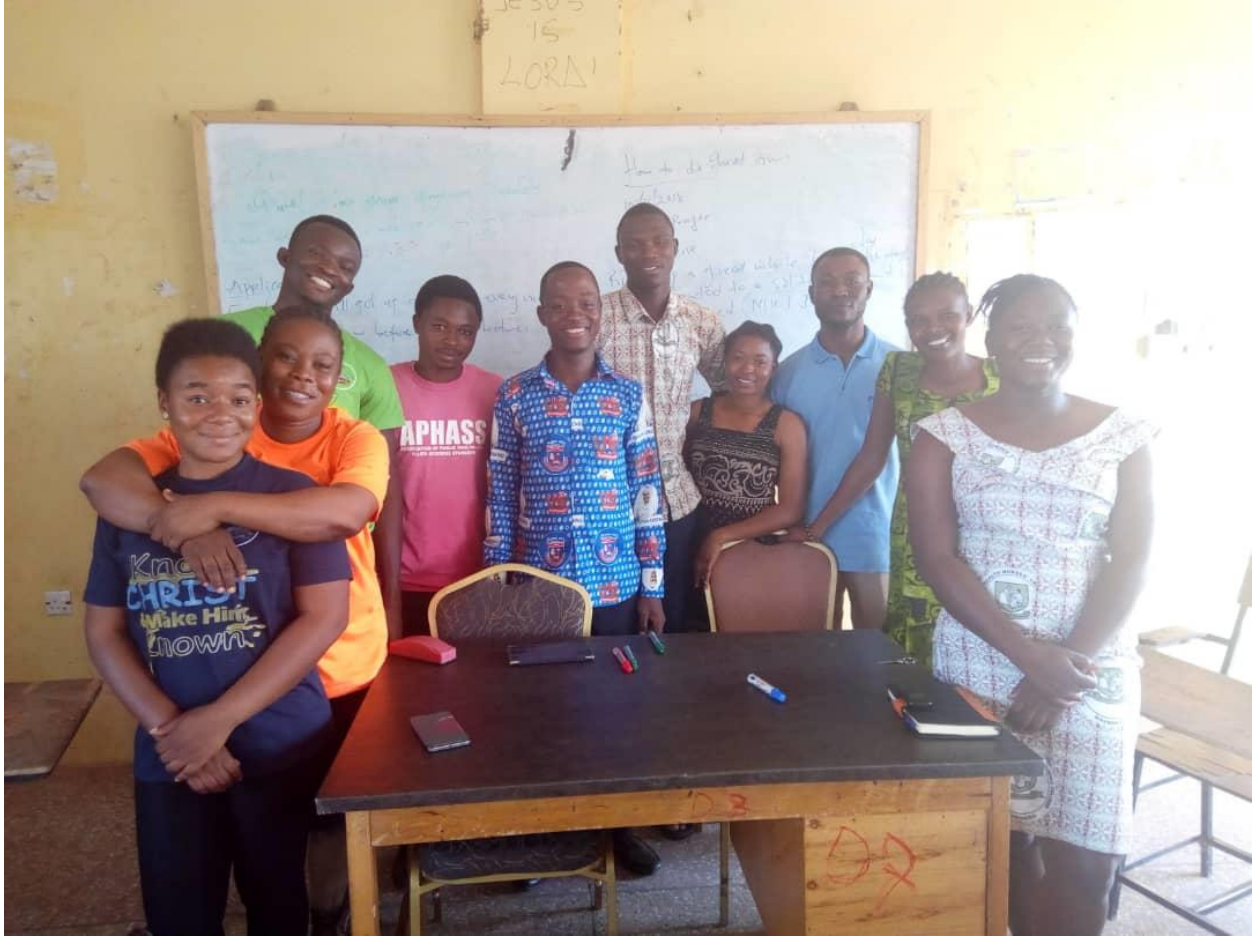

Two discipleship meetings were organized in Bolgatanga polytechnic for the month of November. Our meetings start from 9:00am –11: 00am every Saturday. The facilitator usually leaves Tamale at about 4:30am each Saturday and it takes an average of 2hr30min-3hr to travel from Tamale to Bolga. We discussed Christlikeness, Discipleship, and Disciple-Making. A total of twelve (12) Ghafes executives were present for the class. The composure and readiness of the students in Bolgatanga Polytechnic have been encouraging. We were unable to meet for two Saturdays because of SRC women work celebration and other activities. We are grateful for the two sessions in this month. Below are pictorial displays of the participants after the discipleship class.

NAVRONGO COMMUNITY NURSES TRAINING COLLEGE

A total of three meetings have been held with the Navrongo NTC. We meet every Saturday from 12:00 noon – 2:00pm. An average of 10 people have always been available for meetings. The students have been corroborative. We have discussed Christlikeness, Discipleship, Disciple-Making, New birth and currently on water baptism. About two (2) Ghafes executives have agreed to be re-baptised because their initially baptism was wrong. One person who have not been baptized at all will also be receiving baptism for the first time. Thanks be to God for the three sessions. Below are the pictures from the Navrongo.

UDS – NAVRONGO

Three meetings have been held for UDS- Navrongo Ghafes executives. We discussed Christ-likeness, Discipleship, Disciple –making, New birth, Water Baptism and we are will be continuing with Holy Spirit Baptism in our next meeting. A total of nine (9) executive members are participating in the discipleship class. All the nine have already received genuine baptism. The UDS Navrongo campus have also been one of the most co-operative groups. The pictures are as shown below.

UDS- NYANKPALA CAMPUS

Two meetings have been held with the UDS Nyankpala Campus in this month of November.

They are on water Baptism. They are ten in number but eight is usually available for class. The students have been very co-operative. Below are the pictures

UDS –TAMALE CAMPUS

Four meetings have been organized with the UDS –Tamale Campus. They have finished with the basic bible doctrines. Eight people usually attended the meetings. The students have been co-operative. Discipleship class have been closed for the Tamale UDS campus to enable the students write their final exams.

TAMALE TECHNICAL UNIVERSITY

Just a single meeting has being held for the Tamale Technical University. About Six(6) executive members have always been available for the Class. The Tamale Technical University students have not been supportive at all. They are not given the training the needed attention for the training to be successful. I would be grateful if this issue could be tabled before their leaders for re-dress. All efforts by me and my team to address the situation have not proof fruitful. We are currently on discipleship.
